To Whom it May Concern:

I am very pleased to write this letter of recommendation for Yehyun Lee. I have known Yehyun for the past 4 years at Silverthorn Collegiate. In my business and computer science classes, he has stood out from his peers because he is hard-working, trustworthy, and always maintains a high level of ethical/moral standards. He always earned the top mark in my classes.

Within our class, Yehyun was always willing to help other students with their learning needs. Without me asking, he would take the initiative to offer his help to explain computer science concepts or debug a program. His contributions helped enhance our cooperative approach to learning and foster a positive class atmosphere. He is a true team player. When our courses moved online due to the pandemic, Yehyun continued to demonstrate his excellent time management skills, perseverance and compassionate nature.

I highly recommend Yehyun. Should you require any additional information, please do not hesitate to call me or e-mail me at kevin.roberts@tdsb.on.ca.

Sincerely,

Kevin Roberts B. Comm., B. Ed., M. Ed
